PROFESSIONAL SUMMARY

Experienced Senior Backend Engineer with 7+ years of expertise in building scalable, high-performance APIs and cloud-native applications using **JavaScript, Node.js, Express.js, NestJS, and Typescript**. Proficient in designing secure and efficient backend architectures, integrating third-party services, and optimizing system performance. Strong experience in **AWS, Azure, and GCP** for cloud infrastructure. Committed to delivering high-quality code while meeting tight deadlines and complex development objectives.

SKILLS

- **Programming:** JavaScript, Typescript, Node.js, Python
- **Frameworks:** NestJS, Express.js, React.js
- **Cloud (AWS):** S3, Lambda, CloudWatch, API Gateway, IoT Core, SQS, SNS, RDS, Glue, CloudFront
- **Cloud (Azure & GCP):** Microsoft Azure AD, AD B2C, CDNS, GKE (Ingress), Cloud Logging
- **Architecture:** Microservices, RESTful APIs, GraphQL, Swagger
- **Databases/Caching:** PostgreSQL, MySQL, Redis
- **DevOps & Tools:** Git, CI/CD, Jenkins, Jest, Grafana

WORK EXPERIENCE

SOFTWARE ENGINEER III

Candescent | Bengaluru, India | Sep 2024 – Nov 2025

- Developed and maintained scalable backend APIs using NestJS with Typescript, ensuring high performance.
- Integrated third party services and APIs to enhance system capabilities.
- Managed authentication and authorization workflows, including role-based access control and JWT.
- Conducted code-reviews, wrote unit test using Jest achieving over 95% test coverage to ensure code quality and stability.
- Implemented Redis client in Node.js for efficient caching, improving performance and reducing database load.

SENIOR SOFTWARE ENGINEER

HCL Technologies | Bengaluru, India | Apr 2022 – Sep 2024

- Developed secure, high-performance RESTful APIs for the Welbilt Kitchen Connect IoT Dashboard, ensuring seamless third-party integrations and optimized data flow.
- Leveraged AWS (Lambda, CloudWatch, API Gateway, IoT Core) to enhance performance and scalability.
- Debugged complex issues to ensure the smooth operation of critical applications.
- Optimized SQL queries to improve data retrieval accuracy and ensure data integrity.

BACKEND DEVELOPER

Wiznet India Pvt Ltd | Bengaluru, India | Jul 2020 – Mar 2022

- Designed and implemented GraphQL APIs for HRMS (Human Resource Management System), RMS (Recruitment Management System), and IoT Solution Platforms, improving data retrieval efficiency and system scalability.
- Designed the cloud architecture for B2C based user management modules using Azure Cloud.
- Performed security testing for the sites and implement security measures such as CDNs, Firewalls, etc.

ASSOCIATE SOFTWARE ENGINEER

Center for Digital Innovation | Bengaluru, India | Jun 2018 – Jun 2020

- Developed Android & iOS Mobile Apps for Background Removal using Machine Learning Models like DexiNED.
- Prepared project status reports by collecting, analyzing, and summarizing information and trends.
- Monitored the performance of project team members, providing and documenting performance feedback.
- Implemented multiple simple use case Machine Learning Projects for Research and Proof of Concept purposes.
- Worked on various Research Machine Learning Projects.
- Documented all the development work, project analysis and product delivery feedback.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science

Christ University, Bengaluru, India | 2014 – 2018 | GPA: 3.63/4
